What will be the post-tax return for me? As a Resident Indian, I pay taxes in India. Do I also need to pay any taxes in Mauritius?

Neither the Fund nor the investor is required to pay any tax in Mauritius. As a Resident Indian investor, the investor is liable to pay tax in India. If the investor redeems the investment before completion of 24 months then the tax on return (STCG) is charged as per investor's slab rate. If the redemption is after holding period of 24 months then such LTCG is taxed at 12.50%.

4

Can you provide a comparison of post tax return from Abans Global Arbitrage Fund vis a vis post tax return from other debt instruments in India? Assume my holding period is 24 months to take the benefit of LTCG.

POST TAX INR RETURN (Per Annum)

US\$ Return Expected - Fund	8%
INR Return Expected - Fund*	11%
Post Tax INR Return - Fund	9.6%
Expected Return - INR Debt Instrument	8%
Post Tax Return - INR Debt Instrument	5.6%
Post Tax Return Difference	4%
*Accounting for INR Depreciation of 3-4% pa. Tax assumed @ 30% for INR Debt Instrument

I understand that minimum investment is US\$ 100,000. Is there a way I can invest a lower value than that?

Abans Global Arbitrage Fund receives subscriptions from a couple of global platforms which act as aggregators. Through such platforms, investors can invest even US\$ 10,000 (Rs 8.5 Lakh) in the Fund. The investor needs to get registered on the platform and transfer funds to the platform.

6

Remittance under LRS attracts Tax Collection at Source (TCS). Will it erode my returns from Abans Global Arbitrage Fund?

LRS remittances upto Rs. 10 lakh (approx US\$ 11,000) does not attract any TCS liability. Amount remitted higher than that will be subject to 20% TCS which can be adjusted against any other tax liability like advance tax, TDS on salary income etc. Our assessment is that investor's returns reduce by 0.30% to 0.50% p.a. due to impact of TCS amount held up with the Government that does not earn any return.
